

Revitalizing the Homestake District of South Dakota

JOB POSTING: EARLY TO MID-CAREER EXPLORATION GEOLOGIST

**Looking for an opportunity to work in the Black Hills of South
Dakota? Dakota Gold Corp. is hiring!**

Introduction

We are a South Dakota based responsible gold exploration and development company with a specific focus on revitalizing the Homestake District in South Dakota. Dakota Gold has high-caliber gold mineral properties covering over 43 thousand acres surrounding the historic Homestake Mine and the active Wharf Mine. The Dakota Gold team is focused on new gold discoveries and opportunities that build on the legacy of the Homestake District and its 145 years of gold mining history. Dakota Gold Corp. trades on the NYSE American: DC.

Location

Dakota Gold is headquartered in Lead, South Dakota, which is located approx. 4 miles from Deadwood, both of which are interesting historical towns with entertainment and dining. Additionally, Rapid City, a major city center, is located only 45 miles away. Our exploration operations take place in the area surrounding the city of Lead, this offers a great work life balance with minimal commuting to and from work each day.

The area is known for some of the best outdoor recreation in South Dakota with hiking, biking, fishing and skiing all within a few miles of Lead in the Black Hills. The Lead-Deadwood area is also a mining friendly jurisdiction with a long history of mining in the historic Homestake District, Homestake Mine itself, operated for 145 years, centered in the middle of the town of Lead. In addition, the Wharf Gold Mine operates a few miles west of Lead and has been in operation continuously for nearly 20 years. The local community is well informed and many of the area's established families are connected to current or past mining operations.

Growth and Lifestyle Opportunity

The Company has been putting together an experienced, multidisciplinary team of highly skilled individuals with international experience, and continue to strive to hire a large portion of its technical workforce from the pool of younger graduates of the South Dakota School of Mines and other South Dakota universities. Many of our experienced staff are returning to the Black Hills from other mining regions to continue with their careers. They grew up or went to school in the region and now have an opportunity to return to the area with its recreational and lifestyle advantages.

DAKOTA GOLD

Revitalizing the Homestake District of South Dakota

Working for Dakota Gold is an excellent opportunity for someone to establish themselves in an interesting, geologically complex, and relatively under explored major gold camp. Beyond the great geologic setting and exploration opportunities, the project is in the USA, and living in the Black Hills in South Dakota offers a desirable lifestyle, with the reasonably affordable cost of living and a mixture of outdoor recreation, dining, entertainment and amenities all located nearby within the surrounding communities.

Job Description

The Early to Mid-Career Exploration Geologist position will be mostly field-oriented, requiring experience in planning and execution on generative exploration programs. A successful candidate will need to have an understanding of ore deposit models, can compile, and analyze historic information and data using general GIS skills (i.e. MapInfo/Discover), organize for and conduct field mapping, plan and execute on geochemical sampling programs, and have the ability to report and communicate activities and results to their supervisor and other staff. The field work requires the physical ability to navigate in rugged and remote terrains and the ability to work independently and/or with other staff and contractors. Additional work on drilling programs, core logging, and other project activities is likely.

Position

This is a full-time salaried position with excellent US medical benefits and requires re-location to the Black Hills area of South Dakota. Salary will be commensurate with the candidate's education and experience.

How to Apply
