

## Revitalizing the Homestake District of South Dakota

### JOB POSTING: GEOLOGY ASSISTANT

### Looking for an opportunity to work in the Black Hills of South Dakota? Dakota Gold Corp. is hiring!

#### Introduction

We are a South Dakota based responsible gold exploration and development company with a specific focus on revitalizing the Homestake District in South Dakota by advancing the Richmond Hill Oxide Heap Leach Gold Project to commercial production as soon as 2029, and outlining a high-grade underground gold resource at the Maitland Gold Project.

Dakota Gold trades on the NYSE American: DC.

#### Location

Dakota Gold is headquartered in Lead, South Dakota, which is located approx. 4 miles from Deadwood, both of which are interesting historical towns with entertainment and dining. Additionally, Rapid City, a major city center, is located only 45 miles away. Our exploration operations take place in the area surrounding the city of Lead, this offers a great work life balance with minimal commuting to and from work each day.

The area is known for some of the best outdoor recreation in South Dakota with hiking, biking, fishing and skiing all within a few miles of Lead in the Black Hills. The Lead-Deadwood area is also a mining friendly jurisdiction with a long history of mining in the historic Homestake District, Homestake Mine itself, operated for 145 years, centered in the middle of the town of Lead. In addition, the Wharf Gold Mine operates a few miles west of Lead and has been in operation continuously for nearly 40 years. The local community is well informed and many of the area's established families are connected to current or past mining operations.

#### Growth and Lifestyle Opportunity

The Company has been putting together an experienced, multidisciplinary team of highly skilled individuals with international experience, and continue to strive to hire a large portion of its technical workforce from the pool of younger graduates of the South Dakota School of Mines and other South Dakota universities. Many of our experienced staff are returning to the Black Hills from other mining regions to continue with their careers. They grew up or went to school in the region and now have an opportunity to return to the area with its recreational and lifestyle advantages.

Working for Dakota Gold is an excellent opportunity for someone to establish themselves in an interesting, geologically complex, and relatively under explored major gold camp. Beyond the great geologic setting and exploration opportunities, the project is in the USA, and living in the Black Hills in

## Revitalizing the Homestake District of South Dakota

South Dakota offers a desirable lifestyle, with the reasonably affordable cost of living and a mixture of outdoor recreation, dining, entertainment and amenities all located nearby within the surrounding communities.

### Job Description

- Orient diamond drill core in a consistent manner and mark core for cutting prior to assay.
- Mark and tag samples for core cutting.
- Move and organize boxes and pallets of core.
- Assist in geological tasks such as determining percentages of minerals or structural orientation as necessary.
- Perform geotechnical duties such as cleaning core, photography, measuring core recovery and geotechnical features, and taking magnetic susceptibility and density measurements.
- Perform tasks in Microsoft Office Suite, particularly Excel.
- Organize and use saw to cut billets from core samples identified by geologists for thin section.
- Be self-directed and identify tasks to complete as conditions change daily.
- Be a safety leader and adhere to all policies, procedures, and best practices.

### Qualifications

- Minimum of high school diploma
- 2-5 years experience in mining, exploration, drilling, or related industry preferred
- Ability to work independently and as part of a team
- Excellent communication skills
- Proficiency with Microsoft Office
- Conduct project-related field work on uneven terrain in varying weather conditions as needed
- Must be able to lift 50 pounds

### Position

This is an hourly position with excellent US medical benefits and requires the employee to live in the Black Hills area of South Dakota. Salary will be commensurate with the candidate's education and experience.
