This evolution reflects not only the strength and potential of our projects, but also our deep-rooted commitment to responsible, sustainable growth. We are also proud to celebrate four years without a lost time incident and zero reportable environmental incidents since drilling commenced in early 2022—a testament to the strong health and safety culture, discipline, and care demonstrated by our team at every level. As we move into this next phase, our focus remains on maintaining the highest standards of health and safety, protecting the environment, and creating lasting value for South Dakota.”
